Re: Turcanis Major

Liz,

Questions are being asked about your sending Jim Able to Turcanis.

I understand he is still under medical supervision after the Ch'Garrat affair. I need to have your justification for this. I'm sure he's an accomplished operative, but under the circumstances please let me know your reasoning.

Re: Turcanis Major

Mike,

Jim Able is under regular counseling, as are fifteen of our other agents. It's tough out there, as you well remember. He is not under medical treatment per se. I felt he needed a short assignment to get him back on form.

I am currently running a full house with our major projects. Calling Jim back was the only alternative to forgetting about Turcanis.

I have full confidence in Jim's abilities to handle a simple Second Contact visit.

GB5478 – Confirmed sighting of Turcanian

This notice is additional to my prior transmission.

The Turcanian trader whom I identified in February
this year is once more active about this station.

Navigation Controller Hardy identified his flier in
station-keeping eight thousand miles above our
nominal elliptic.

The pilot has tried on several occasions to contact
the criminal Melha Melha.

If you wish I will initiate contact. Please advise.

Re: Turcanian trader

Please continue to monitor the Turcanian's activities. There is no need to initiate contact.

We are waiting for the return of our agent from a second contact visit. We will review the situation after a full analysis of this visit.

Thank you for your diligence in this matter, it is much appreciated.

GB5677 – Military Hardware theft from Theta-Proxima

We have performed an inventory of the hardware on the Birritan cargo
ship.

I regret to inform you that the current contents do not match the
expected contents in that the following items were NOT FOUND:

- | | | |
|----|------------------------------------------------|------------------|
| 1) | 1 (one) lasercannon mounting kit | (65 of 66 found) |
| 2) | 1 (one) lasercannon control unit | (65 of 66 found) |
| 3) | 1 (one) lasercannon servo-extender kit | (65 of 66 found) |
| 4) | 1 (one) lasercannon training pack | (65 of 66 found) |
| 5) | 2 (two) lasercannon maintenance packs | (64 of 66 found) |
| 6) | 1 (one) Bahstu Corp. Variable G-j lasercannon | (65 of 66 found) |
| 7) | 2 (two) Bahstu Corp. Scanner Interface modules | (33 of 35 found) |
| 8) | 1 (one) Mobile converter pack | (19 of 20 found) |
| 9) | 1 (one) Bahstu Corp. Cannon Carriage | (19 of 20 found) |

It may be assumed that these items were removed from the cargo
ship prior to the inventory.

Re: Prohibited Technology Alert

Attached is an informational from the HH Neb, with ref to the TP training base attack.

Please upgrade GB5677 to a full PTA.

The first person I would like you to try to eliminate from your investigation is the Turcanian. Please cross-reference with the informationals received for GB5478.

THE PROBLEM WITH UNCLE TEDDY'S MEMOIR
A SPECULATIVE FICTION ROMANTIC ADVENTURE MYSTERY

A science fiction book like no other...

In copied letters, collected emails, office notes, and of course, the pages of Uncle Teddy's own manuscript, Ed Charlton pieces together an epic sci-fi tale of empire, conquest, slavery, betrayal, romance, adventure, and mystery. Is it speculative? Is it even fiction at all...?

"THE PROBLEM WITH UNCLE TEDDY'S MEMOIR is a tantalizing, disturbing little story, carefully and lovingly designed to maximize suspense and provoke thought."
